REFUGE CAMPS ESTABLISHED IN THE NEIGHBORHOOD OF JACKSONVILLE,

Terror Reigning in the Plague-Stricken City-Only Eight Persons Have Recovered So Far-Thieves at Work-Five Refugees Arrested at Charleston-Escaping Persons Quarautined at Atlanta.

ISPECIAL TO THE EVENING WORLD. JACKSONVILLE, Fla., Aug. 29.-Yellow Jack has become an awful terror, and the people of this city are stricken with panic. The health train was crowded more than full of refugees this morning, and the exodus is is increasing in volume.

There were 21 new cases yesterday, and Thomas H. Clark and Tom Marshall died. To-day's report has not yet been made out, but it will show a still greater increase. There have been a total of 131 cases so far; 19 have died, and only 8 have recovered.

The Ecening Metropolis is without printers, some of them being sick with fever and the others having run away. The telephone exchange is still doing business, Miss H. L. Kidd Misses Mamie Davis and Tessie O'Rourke, Mrs. Weybrech and Jack Finnegan remaining at their posts, while a dozen others ran away.

The city is fast depopulating, the people becoming fugitives. They are stopped, how-ever, and sent to a camp of refuge on the St. Mary's River, established only yesterday, under charge of Dr. Guiteras and known as

Camp Perry.

Temporary quarantine stations are also established at Waycross, Ga., and Live Oak. Fla., where passengers and baggage are thoroughly inspected, and persons from the infected district are obliged to return or go to Camp Perry, and their baggage is fumigated. Another refuge camp is to be established in the North Carolina mountains.

The panie has spread far and wide through the South. At Charleston five persons suspected of having come from the yellow fever district have been arrested and are now detained at the lazaretto quarantine in the harbor, and the Board of Health yesterday denied admission to the harbor to the steamer Castilla.

Castilla.

Jacksonville refugees at Atlanta are quarantined. Yesterday they appointed a committee to visit Gov. Perry at Tallahassee. They claim that Surgeon-General Hamilton is controlled by the Savannah, Florida and Western Railway, and protest against the attempt to keep the people in Jacksonville.

The people of East Jacksonville, where no yellow fever has yet developed, strongly object to the use of St. Luke's Hospital as a yellow-fever hospital, but there is no help for it. The doctors still insist that the fever is not contarious, only epidemic.

not contarious, only epidemic.

As usual the result of the panic among the people of Jacksonville has been to make thie yes and rascals of all the idle and shiftless, and while the police force has been tem-porarily increased the city is comparatively helpless.

This is another added to the long list of mysterious tragedies of which the isolated mountains of Colorado have been the sole and dumb witness. Babcock and Pap were alone when it occurred. He left him right after the shooting, came down from the ranch to Dotsero, a distance of sixteen miles, and took a train for Glenwood Springs, where he gave himself up to Deputy Sheriff Little. The story he tells is that he was forced to shoot his aged victim in self-defense. His narration was confused and distorted,

This money was paid in to Mr. Stewart as treasurer, and he was instructed to satisfy the creditors of the church.

The defaulting treasurer, however, was very careful to pay the interest on the mort-gage from his own pocket, so that his ras-cality would not be revealed.

He made payments of interest regularly until March 15, 1888, when the holder of the mortgage, Jas. M. Anderson, communicated the fact that a payment of interest was due.
